After the applause had somewhat subsided, Hon. Wm. S. DuBrutz Cutlar, Esq., in answer to a loud call, came forward. He did not desire to make a speech and he did not intend to make a speech; he meant simply to give in his adherence to the great Democratic party. His associations and connections were all whig-but the whig party had vanished and in its place had arisen the Know Nothing order, which purported to have risen upon the ruins of the Democratic party also, but that was nonsense-the Democratic party was not in ruins, on the contrary it was alive and vigorous, and stood as the only national and constitutional party to whose principles he could subscribe and in whose success, he could rejoice. Mr. Cutlar was heartily cheered.

M. B. What new and great thing had he originated-nothing-none. He had signed the Fugitive Slave Law, but he had taken care to shield himself from his northern friends under the written opinion of his Attorney General and his pledge to veto no bill passed by Congress unless clearly unconstitutional. So far as the State of North Carolina is concerned, the canvass may now be considered as fairly entered tions, and have accepted the positions to which they have thus been called. As soon as the action of the the Crimea in bodies of 20,000. Democratic National Convention shall have been had and its candidates placed in nomination, the tug of war will more fully commence. In this canvass we possess, to the support and advancement of the Democratic cause. We mean to do so calmly, respectfully and conscientiously, as men convinced that they are in the path of right, and anxious to act in a manner worthy of that right; shrinking from nothing that duty may require, and resolutely setting our faces against anything and everything that may conflict with such duty or with perfect fairness and justice to our opponents and to ourselves.

The Convention of the Know-Nothing party, which assembled at Greensboro' on the 10th inst., placed before the people of the State as the standard bearer of its organization, John A. Gilmer, Esq., of Guilford county-a gentleman very respectable in private life, and enjoying considerable personal popularity n several of the counties of his own district; but at the same time a gentleman with a political record as highly objectionable as that of any politician of the

same standing within the borders of North Carolina. The Convention which met at Greensboro', on motion of Victor C. Barringer, Esq., of Cabarrus, passed resolution as follows:

"Resolved, That in order that the paramount principles of Americanism may not be trammelled in the ensuing contest by vexed State questions made up by former political organizations, the American party, eschewing sectional issues in the State as well as in the Union, declare their purpose of abiding by and maintaining the representative basis of the present Constitution."

This is most certainly a remarkable resolution-a very remarkable resolution—it is not pretended that the Convention declared its purpose of abiding by and maintaining the representative basis of the present constitution from principle or conviction, but simply for the purpose of dodging certain important State issues in the canvass for a high State officer, for to this all the grandiloquent declaration with which the resolution sets out amounts. It is a mere matter of expediency and not of principle. Little reference as this resolution has, or pretends to have, to anything beyond temporary expediency bounded by the "ensuing canvass," it will bear still worse a his language, we find the following expressions used sels on the high seas. in regard to the representative basis: "Save us from such freedom! The President, in reply, spoke with his usual readiness and empressement, alluding briefly, yet feelingly and eloquently to the scene presented, when in that room General Washington resigned his military power into the hands of the civil authority from whence it came. He lamented that so few of the men of revolutionary times were left among us to counsel an avoidance of those dangerous sectional divisions that threaten our peace and jeopardize our Union.

"The immense gains of the democrats in our large cities and towns, and in those States when elections have been held this spring, although or posed by a combination of the know-nothings, to publicans, and abolitionists, show very clearly which way the wind blows. A year ago, in each of the States alludeded to-viz: New Hampshire, Rhode, la land, and Connecticut-the democrats were defeated by an overwhelming majority. This year the combination against them has been more extensive an complete than before, yet in each case they pres very closely upon the heels of their opponents, Until last year, there had long been an abolition of free-soil party, which neither sided with the demotions, they have fraternized lovingly with the other opponents of democracy; and the consequence is that although the democrats, in each of the States mentioned, polled a vote nearly, if not quite, unprecedented, they are still slightly in the minority. But they now see the full strength of the enemy, and the amount of work to be done. All that remains it to no ir. And the opportunity is near."

the Conferences.
From the London Times, March 26th.

The intelligence which we communicated some days since, to the effect that the Porte had refused to sanction in some particulars the proceedings of the Paris Conference, is now confirmed. The Council of Constantinople, it is now known, has directed Ali Fasha not to consent to the insertion of the Sultan's late decree among the articles of peace, as such a concession would bind the Porte to a certain form of administration in its own independent territories. ereign rights of the Porte in those Provinces. Of the former question we have already spoken. The institutions which are to give the Rayah subjects the Sultan new rights and a new career must be the care of the Western Powers for many years to come It will be some time before England and France will be able to relax their hold upon Turkey. The matters to be determined are important and complicated, and even the most enlightened statesman must confess that he sees but a little way before him, in this medley of hostile races, deep rooted prejudices, decaying yet tenacious creeds, intrigue, misrepresentation, and venality. We may be content, therefore, in some degree to wait, and see how gradual and tentative reforms work in a land where everything has been prescription and immobility for ages. But the question of the Principalities demands a speedy decision. These provinces are the most exposed and coveted part of the Turkish empire. They are even now occupied by foreign armies. They have been for several generations under the influence, and st last under the recognized protection of Russia.-Within a few years they have been twice invaded by Russian troops, and at the outset of the war were almost formally confiscated by the Czar. They are, through a large part of their extent fertile beyond the average productiveness of Europe; they command the great river of Europe, and the rectification of frontier proposed by the new treaty will add to their territory the delta and fortresses of the Lower Danube. The race which inhabits them is strangely situated. A part is under Russian sway, in Bessarabia, and that part of Moldavia which was appropriated by Alexander in 1812. A part is subject to the dominion of the Austrian Emperor. Each of these potentates can place large armies on the frontier of that part of Roumania which is still in a manner independent, and each may be tempted to violate treaties by the natural desire to extend his empire, and the equally natural fear that his rival may anticipate him. The seizure of the Principalities was the cause of this war and must be the first step in any aggression of Russia. It is therefore the duly of the Allies to settle the question on a sure basis, and build up a political fabric which will give content to the inhabitants, preserve as far as possible the rights of the Porte, and, without giving cause of

The manner in which the Turkish Council has roused itself of late to assert its independence of foreign control, is well described by our correspondent at Constantinople. It seems that the Turkey whose armies were ordered to and fro by the allied Generals, and whose assent to diplomatic arrangements was hardly thought necessary to ask for, is resolved once more to assert a will of its own. Whether the Porte will have the courage to persevere we know not, but at present its policy seems to be to uphold the independence and integrity for which the allies have declared that they fought. At the preliminary Conferences at Constantinople the question of the Principalities was debated but nothing was settled.

The want of full instructions was pleaded by the Ambassadors of France and Austria, and the matter was referred to the Conferences at Paris. Shortly after the telegraph informed the Porte that Lord Clarendon, Count Orloff, and their associates were debating on the union of the two provinces. The idea had not been brought forward at the Constantinople Conference. The receipt of the news threw the Council into much excitement. Meetings of the high dignitaries of the empire were daily held, and the result was a formal protest by telegraph against the discussion even of the union of the two Principals ties, a violation of the sovereign rights of the Porte in those provinces. In spite of long interviews be tween the French and Austrian Ambassadors and the Ministers at the Porte, this protest was sent.

on the 16th inst., the Secretaries were unable to prepare them fully for publication before we left, and it was, therefore, out of our power to place them before our readers earlier than to-day.

But, leaving mere details out of the question, certion was the largest ever held in the State. The all, the real point, was 290. So much for numbers. In unanimity, we think it surpassed any previous gathering. Thomas Bragg was the personal choice of every man present for governor-the enthusiastic choice, and, after meeting him and hearing him speak, as he did speak when introduced to the Convention, all surprise at this enthusiasm was at an end. He by a majority exceeding the largest obtained by Gov. Reil. Upon this point, there was but one voice and fifteen to twenty thousand-ten thousand, perhaps, would be nearer, but let us work and see how much we can give him.

Another point upon which there was found to exist perfect unanimity, was in regard to the recommendation of Franklin Pierce and James C. Dobbin. On this point the Convention was, and the Democracy of the State is, a unit. But, while this is so, the deepest respect is felt and expressed for very many other able and worthy members of the party throughout the country, and the fullest determination shown to go for the nominees of the Cincinnati Convention, provided they be good Democrats, and on this head there exists a perfect assurance that none other will be presented.

On the principles of Democracy, the party is a unit. We have never known a more healthy feeling to prevail, and there is an earnestness, a disposition to work, which it required the attacks of the Know-Nothing order to bring out. There is no lukewarmness anywhere, and there is a confidence in success. and a fixed will to attain it, that nothing can resist. The ball is in motion. Let it be kept rolling .-Let the good of the cause be the only motto-the only motive of action. Let all merely personal matters-all merely personal likes and dislikes, be thrown aside-all little or big cliques pass unnoticed, as unworthy to disturb for one moment the harmony of the great Democratic party. Our first business is to defeat the common opponent. That done we may think ourselves, but not before. Let our only rivalries, our only contests with each other be to see who shall render the best and most efficient service to the Democratic cause. Its success will be the pest reward of all

who feel as we do about the matter.

SEVEN O'CLOCK, P. M. The Convention re-assembled, pursuant to adjourn-Mr. Hill of Halifax, Chairman of the Committee

on Resolutions, reported the following, which were read and unanimously adopted : read and unanimously adopted:

WE, the delegates of the Democracy of North Corolina, in Convention assembled, deeming the present occasion a suitable one to re-affirm the well defined principles upon which our organization, as a party, is based, do Resolve, That we cordially approve and re-affirm the Resolutions of the Democratic National Conventions of 1844, 1848, and 1852, as far as they are applicable to the present condition of the country.

of the Union. That in our opinion the doctrine of popular sovereignty is the true doctrine; that the people of the Territories, when they come to form their State Constitutions and apply for admission into the Union as States, have the right to determine for themselves the character of their domestic institutions.

Resolved, That we have viewed with admiration and gratitude the noble and manly stand taken by the great body of the Democrats of the non-slave-holding States, in behalf of the constitutional rights of the South, and we will cheerfully unite with them, as heretofore, in general Convention, to nominate candidates for the Presidency and Vice Presidency of the United States, and to proclaim once more to the world the great principles of the Democratic party; and we pledge our zoalous and united support to the nominees of said Convention.

Resolved, That we regard the Know-Nothing organization

Resolved, That we regard the Know-Nothing organization we congratulate the country upon its influences and tendencies. We congratulate the country upon its rapid decay. The contest for the Presidency, it is apparent, must be between the Democratic National party and the Black Republicans;

Resolved, That we are opposed to all secret, oath-bour political associations, and to intolerance and proscription on zant of the trial, and she was sought out and proaccount of religious opinion, either by Catholics or Protesduced at the court, to the pleasant astonishment of

tants, by legal enactment or at the ballot-box.

Resolved, That President Pierce, by his Inaugural address and subsequent State papers, and especially by the noble vin-dication of the constitutional rights of the States, contained in his last annual message to Congress, as well as by his uni-form devotion to the constitution, and his faithful enforcement of its obligations, has endeared himself to all true lovers of the country; and, while we freely ackdowledge and proudly recognize the abilities, the patriotism, and the sound principles of many other distinguished members of our party, and will give a cordial and united support to whomsoever may receive the nomination of the Cincinnati Convention, we yet deem it due to FRANKLIN PIERCE, and to ourselves, to declare that he is our first choice for the Presidency, and that we should hail his nomination with the liveliest

Resolved. That we are proud of the reputation of JAMES C. DOBBIN, Secretary of the Navy. We respect him for his experience and wisdom as a statesman, and cherish a strong affection for him as a man, on account of his amiable disposition and his many virtues; and that his nomination for the Vice-Presidency would be gratifying to the people of North Carolina, and serve to bind still more closely together

the national Democratic party.

Resolved, That the Constitution of the State ought to be amended, so as to extend to all free white men the same right to vote for members of the Senate as for the members of the House of Commons; that we regard the plan of amendment by legislative enactment and the sanction of the people at the ballot box, as strictly republican, as it is certainly constitutional; that we are opposed under any and all circumstances, to a change of the basis of representation in the Senate and House of Commons; and that we will never abandon the ces, to a change of the basis of representation in the Senate and House of Commons; and that we will never abandon the great principle of Free Suffrage, but will unite with our fellow-citizens of both patics in pressing it, in the face of all opposition and difficulties, to its final triumph.

Resolved, That it is our earnest wish, and desire to see the resources of North Carolina, agricultural, mineral and commercial, fostered and developed; and the State having alrendy entered upon a system of internal improvements to already entered upon a system of internal land that view, it that end, and made large investments with that view, it would, in the opinion of this Convention, be politic and proper for the Legislature, from time to time, to extend such further aid in the completion of the works already undertaken and the extension of the same, as a just regard for the in terest of the people may require, and the means and resour-

es of the State will prudently allow. Resolved, That our present system of Common Schools ought to be fostered by the Legislature, and its efficiency increased, until the blessings of Education shall have been afforded to all the children of the State. Resolved, That the course of Gov. Bragg has been such as

to confirm and increase the confidence reposed in him, to reflect honor upon himself, and to promote the best interests of the entire State; and that with the fullest confidence in his triumphant re-election, we again present to the people of North Carolina, as the Democratic candidate for Governor,

four alternate delegates, be appointed by this Convention, to represent North Carolina in the Cincinnati Convention. Resolved, That two Electors and four Assistant Electors be appointed by this Convention for the State at large.

A MURDER TRIAL-APPEARANCE OF THE MUR. DERED ONE -The Cleveland Plaindealer says:

"On Saturday an examination took place before Esq. Hessenmueller of Michael Wyngert, for the murder of his wife. The prosecution was induced by the sudden disappearance of the woman about six weeks since, and it was supposed, from the habitual ill-treatment to which she had been subjected, that she had been murdered. No trace of her could be found, and the statement of the defendant confirmed the suspicion. The evidence had been heard, and though it was circumstantial, the probability of the murder was strongly sustained At this juncture the court room being crowded by excited spectators the woman alleged to have been murdered made her appearance, to the great surprise and gratification of all, and especially of the culprit on trial. The wo the Democratic National party and the Black Republicans; that a third party cannot strengthen, but must weaken the South in this contest; and that in a crisis like the present it is alike the interest and the duty of all Southern men to unite with that party which gives the strongest assurance. By its unity, its numbers, and its nationality, that it will triumph over the enemies of our constitutional rights, by whatsoever name called. that the intelligence came to those who were cognizant of the trial, and she was sought out and proall concerned."

Farmer's Creed. We believe in small farms and thorough cultiva-

We believe that the soil loves to eat, as well as its owner, and ought therefore to be manured. We believe in large crops which leave the land better than they found it-making both the farmer and the farm richer at once. We believe in going to the bottom of things,

and therefore, we believe in deep ploughing, and enough of it. All the better if with a sub-soil plow. We believe that every farm should own a good far-We believe that the best fertilizer of any soil is a spirit of industry, enterprise, and intelligence.

Without this, lime and gypsum, bones and green manure, marl and guano, will be of little use. We believe in good fences, good barns, good farm houses, good stock, good orchards, and children enough to gather the fruit.

We believe in a clean kitchen, a neat wife in it, a spining piano, a clean board, a clean dairy, and a clean conscience. We firmly disbelieve in farms that will not improve in farms that grow poorer every year-in starving eattle-in farmers boys turning into clerks and mer-

chants-in farmers who are ashamed of their vocation, or who drink whiskey till honest people are ashamed of them.

LYNCH LAW IN CHINA .- The New York Commercial has the following extract of a letter from China. dated December 8:

"Our peaceable suburbs were a scene of unwonted uproar yesterday afternoon. A Canton man quarreled with a Fuh Chau man in the street and killed him on the spot. He was instantly seized by the mob, and with his hands tied behind him, taken to the top of the hill back of the foreign hongs, and bound to a pine tree. The wife of the deceased coolie took a nail and drove it into the body, shoulders, breast, temple and eyes of the writhing culprit, aided and abetted by a furious multitude in her bloody revenge. The man was just alive at sundown, several hours after. I saw the mangled body this morning. The head was a perfect mass of gore. The conduct of the woman is loudly applauded by the natives."
